MANUFACTURERS OF

DECORATIVE MARBLES

IMPORTED and Domestic Marble reproduced in any color; Onyx, Sienna, Red Numedian, Pink Numedian, Conomara Green, Alps Green, Black and Gold, Irish Green, Pavernazza, Verd Antique.

Our artificial marbles should not be confused with any cheap imitation, as they are thoroughly substantial and true to the original marble in coloring and every detail of graining, and will, in many cases, out-last the natural product. Below will be found a few of the Churches, Hotels, Stores and other important buildings in which we have placed our marble, and where it is giving unqualified satisfaction.

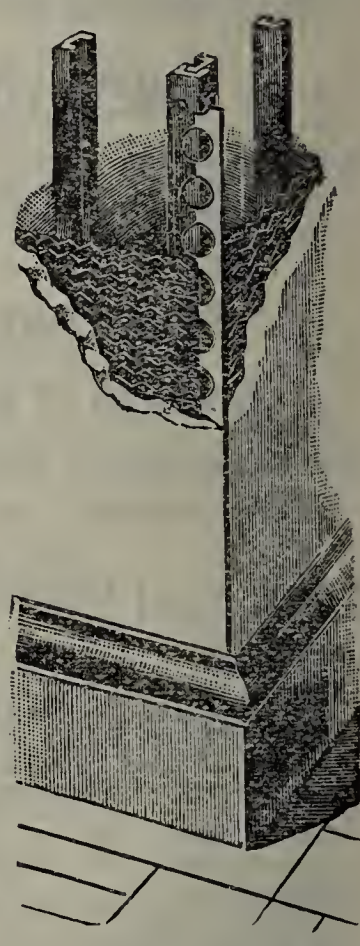
METAL CORNER BEADS

For Plaster Corners on Wood, Brick, Terra Cotta and Iron.

As on Wood.



This Bead can be arched to fit any desired radius ; further, it makes a true curve for the plasterer to work by, thereby saving time and labor.

Broken and chipped-off corners are unknown in buildings where this bead is used, besides adding to the architecture of building a handsome and at all times staple corner.

It is not expensive. It is cheaper to put corner bead in your building than leave it off, because it makes a true corner and a plasterer can proceed with his work and not stop to use a straightedge, which is necessary on plaster corners.

As on Iron.

Gentlemen:

Your favor of the 16th inst. at hand stating that you would forward Directory by express. We also note what you say in regard to writing Mr.Collins in regard to our Heating Boilers. We will take the matter up with him and see what can be done.

We wish also to state that we have used your Commercial Register for a number of years and only lately it was the means of saving us at least $63.00 on one purchase. This came about in the following manner: We were in need of 24 Elevator Forgings. The parties from whom we formerly purchased them asked us about 6½¢ per pound. We then took the list from your Register and wrote to the different works specified in same requesting them to quote us price on the Forgings in question. Among the firms that quoted us was one whose price was 3½¢ per pound. This was a difference of 3¢ per pound on these Forgings and as they weighed about 2100 pounds,it made a saving to us of about $63.00 This is only one instance wherein your Register has saved us money,besides giving us a ready list of manufacturers of goods we frequently use. If you care to use our testimonials in any advertising you are at liberty to do so.

Thanking you for favors shown us,we remain

Yours truly,

GROTE M'F'G CO
